

# Car Rental Application

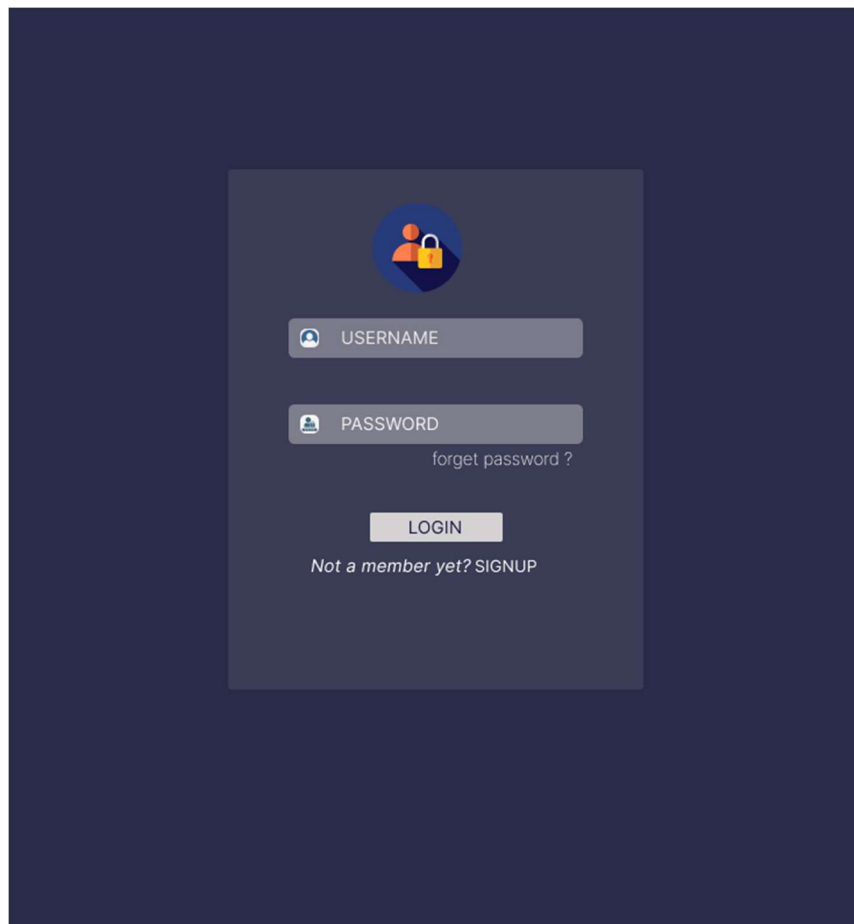

## Room - 10

### ➤ Main Objective:

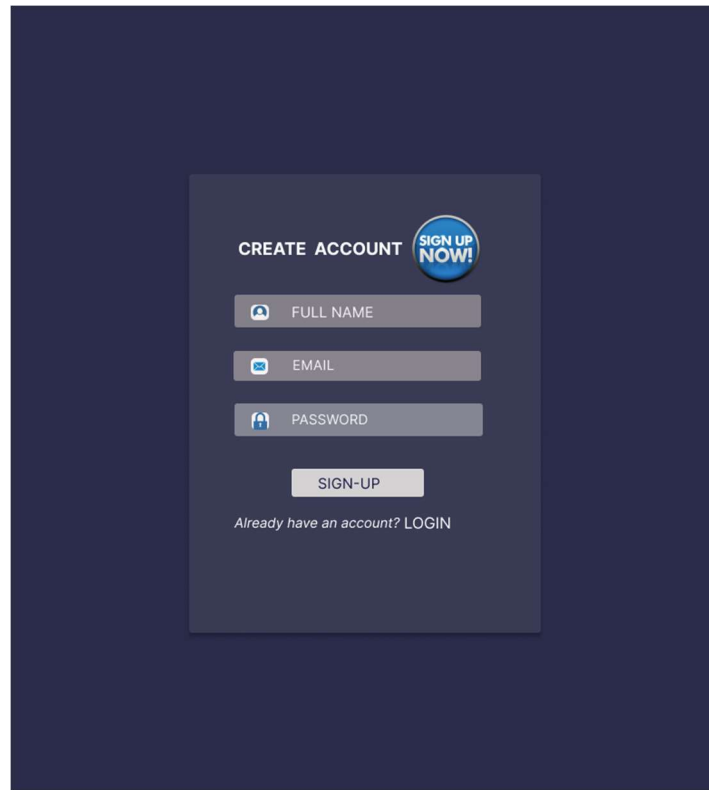

- Create a Car Rental Application that allows a user to rent a car for a specified amount of time. The application will have 3 types of account. A user is the person who will rent the car. An owner is the person who will give his car on rent. An admin will be responsible to manage the application. A user/customer can rent a car for specific duration that will range from one day to one year. Price will be according to the duration and the model of the car. Price will be set by the owner.

## Home Page

A car rental home page with a dark blue header. The header contains a logo, a search bar, and links for Home, Login, and SignUp. The main content area features a large image of a purple car on a rotating platform, with the text 'BOOK A CAR NOW' and 'FAST & AFFORDABLE'. Below this is a carousel of car models and prices: Swift Desire (\$22.50), Toyota Mirai (\$45.30), and Suzuki (\$35.10). The 'WHY CHOOSE US' section lists services: Outstanding services, Name For Quality Vehicle, GPS on Every Vehicle, and 24 Hours Support. The 'CONTACT US' section has buttons for PICK UP, PICK DATE, and RETURN, along with a 'FIND A VEHICLE' button.
